Certificate No: 2210131645093740

TÜRK LOYDU

CERTIFICATE of APPROVAL for WELDING CONSUMABLES

This certificate will be valid if the annual checks to be carried out from the date of first issue comply with the current TÜRK LOYDU rules. Please check the annual approval stamps on page 2.

Manufacturer

: OERLİKON KAYNAK ELEKTRODLARI SANAYİ ANONİM ŞİRKETİ

Address

: Organize San. Bölgesi 2.kısım 45030/ Manisa

Brand

: MAGMAWELD TI 309L

Product Description

: Wire-Gas Combination

Grade

: 4332

Diameter (mm)

: 1.6 - 2.0 - 2.4 - 3.2

Welding Positions

: PA, PB, PC, PD, PE, PF

Welding Process

: GTAW (Gas Tungsten Arc Welding)

Shielding Gas/Flux

: I1

Current

: DC(-)

Performed Test Scope

: All Weld-Mechanical Tests, Chemical Analysis

Remarks

: -

Initial Approval Date

: 03.12.2021

Issue Place and Date

: İSTANBUL / 25.10.2022

Surveyor Name : Onur KOCABEY
Date & Signature : 25.10.2022

This certificate is subject to terms and conditions overleaf. Any significant change in design or construction may render this Certificate invalid. The manufacturer should notify TÜRK LOYDU of any modifications or changes to the equipment in order to obtain valid certificate. This certificate shows that tested specimens, representative of the product complies of the TÜRK LOYDU rules, and relevant international instruments that apply to it.

Certificate No: 2210131645093740

Endorsement for Annual Approval of the Welding Consumable

-The validity of this certificate -The conformity of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the production of the productio	e has been renewed until Septect/products within the current rule 8.8	es has been determined.
